SUMMARY

Welcom!

I am really enthusiastic about gaining new technological knowledge and always want to improve my self in this field.

I believe that patience and responsibility are two main factors which can help me complete my works effectively. The more technology develops, the more I learn.

MY SKILLS

- **Programing Languages:** Javascript, Html, Css, Sass
- **Frameworks:** ReactJS , Bootstrap, Angular basic
- **Knowledge:** Responsive Website

EXPERIENCE

❖ Apartment management system project

- **Project description:** By applying all of knowledge that I have learned, this website created for the purpose of helping building managers can supervise internal information including: apartment, common property, services, receipts, and division of management authority. However, this website is still a demo version; therefore, it can not avoid mistakes and static data in the source code, it will be back to the original when reloading the page.
- **Team:** Only me
- **Technology:** Reactjs+Redux+Hook, Bootstrap, Sass
- **Product:** https://demo_he_thong_qlcc.surge.sh
username: admin
password: 123456

❖ Cybersoft - Cyberlearn Programing Education Center

- **Programming course:** thinking in programming, problem-solving, Java language, OOP
- **Front-end Foundation course:** basic knowledge of HTML5, CSS3, Bootstrap 4, SASS/SCSS, Javascript (ES5/ES6), Reactjs, AJAX, Git, ...

EDUCATION

I'm currently a junior of Ton Duc Thang University (TDTU).
